TURBOPULSE GTC

ADVANTAGES

- Higher availability and reliability
- Suitable for wet and humid • conditions
- Fast and easy installation •
- Fully incinerable •
- Corrosion-proof •

- Self-cleaning cartridge filter with longest filter life •
- Lowest and most stable pressure drop
- Extends final filter when used as a prefilter
- Improved pulsability due to HemiPleat open-pleat media • technology
- Best pulsability with depth-loading media technology

| Application | Humid or dry heavy dust load areas, coastal and fine hydrocarbon environments Pre- or final filter for gas turbines, large industrial air compressores diesel & gas engines, generators & enclosures | | | | |
|--------------------------|---|--|--|--|--|
| Frame | Plastic molded | | | | |
| Gasket | Double seal, molded TPE | | | | |
| Media | Synthetic | | | | |
| Separator | HemiPleat Technology | | | | |
| Sealant | Polyurethane | | | | |
| Rec. final pressure drop | 1000Pa | | | | |
| Max airflow | 1.1 x nominal flow | | | | |
| Max Temperature (°C) | 70°C | | | | |
| Relative Humidity max | 100% | | | | |
| Installation Options | SureGrip gasket for perfect sealing lowers the risk of bypass Built-in alignment tabs for easy installation Built-in handles, indicator washer and centering notches | | | | |
| Pleat | HemiPleat | | | | |
| Comment | Additional product features: Patented proven open-pleat media HemiPleat [™] technology Non-discharging T9 (ISO 29461-1:2021) Water resistant media Improved dust release Optimal ability to handle daily fog and humidity Filter wraps available on demand. Fits any standard conical-cylindrical filter house installations 100% corrosion-proof Fully incinerable Faster and easier installation | | | | |
